This morning the Formentera Council and the Espai Dones association renewed a pact by which the local administration will provide €3,000 in funding to support the organisation of dynamic and educational activities that work toward equality promotion and the prevention of domestic violence.

At the signing were Council president Jaume Ferrer, social welfare councillor Dolores Fernández Tamargo and Espai Dones president Vanessa Díaz. All three affirmed their satisfaction with the results of collaboration between the Council and Espai Dones to this day – to wit, yearly pledges of funding that had until this year been set at €2,500.

The last week of March was the final hurrah for activities celebrating Women's History Month. Coordination of the March Women's History Month programme calendar, as well as the activities that accompany International Day for the Elimination of Violence against Women (25 November) constitute the bulk of Espai Dones programming.
