The Formentera Department of Social Welfare announces that applications are now being accepted for €45,000 in subsidies for non-profit private groups and associations that develop programmes and other support related to social services in 2020. The deadline for applications is 24 August. Conditions were posted to the Official Gazette of the Balearic Islands (BOIB) on 24 July.

“Funding will cover some of the costs of programmes and services which are helping to improve health and social services on Formentera”, said Conseller Rafael Ramírez. “Not only that”, he continued, “it will benefit non-profits focused on care and improved living conditions for seniors, people with disabilities, people living with mental illnesses and other chronic ailments and other dependent individuals”.

Groups that are interested in the offer should schedule an appointment at the Citizen Information Office (OAC) by calling 971 321 087. Applications will be accepted from any private association or other entity that is focused on care and support for the groups mentioned. Subsidies can cover up to 75% of the total cost of a project, no more than €15,000 per group. Conditions can be found on the Consell de Formentera website.
