

At 7.30pm yesterday, attendees of the second meeting on participatory budgets in 2022 reviewed the list of the projects that have been presented. All told, 35 projects were reviewed, 13 from among the projects presented in 2022 and 22 from those projects which were interrupted in 2020 due to COVID-19. Of the 35 projects, four from 2022 and eleven from 2020 were not voted on because they are either already being implemented in other ways or are not viable for a participatory spending initiative. In the end, therefore, local associations must choose from among 20 proposals.

Ana Juan, President of the Consell de Formentera, praised "the broad participation of all associations that have submitted projects" and encouraged them to "relay the proposals to their associates and vote for those that best suit their preferences".

The Consell de Formentera has set aside €325,000 to develop the projects that the associations rank the highest. Vanessa Parellada, Councillor of Citizen Participation, stressed that most of the projects "deal with sustainability, youth, sports or health - proof that Formentera's associations are concerned with the good of society as a whole". Associations have two weeks from today to cast their votes. The related form is available online and must be filled out and submitted to the OAC or OVAC.

Voting ends on 26 April 2022. The results of the vote will be presented at the final session of Pressupostos Participatius 2022, to be held in the days ahead.
